The RELIGHT Solution

An AcuityBrands Company

With the **RELIGHT** Solution, you will notice and appreciate a marked improvement in how your space looks and feels. The **RELIGHT** Solution promotes savings and reduced maintenance costs in a greener, more sustainable building. These goals can be accomplished cost effectively and with minimal disruption to your business.

Photo above represents a typical installation in a small office. The three-lamp traditional T8 parabolic lighting is retrofitted with an RTLED Relight volumetric assembly kit. The realized energy savings is greater than 35 watts per fixture.
